

# Water Tower, Café Panorama

The Nykarleby water tower was built in 1964. At the top of the tower, 69 meters above sea level, there is a recently renovated summer café with an expansive view of Nykarleby and environs. Since 1996, the elevator room has hosted Finland's highest mural, 46 x 1.15 m, or 52.9 m<sup>2</sup>. The tower is open in the summer.
